

RISK ASSESSMENT for Wilburton Football Club

Safeguarding Risk Assessment 2023-2024 Season

This risk assessment has been developed in line with CPSU (Child Protection in Sport Unit) guidance and The FA's Safeguarding Checklist.

- It is intended to support Affiliated Clubs making safeguarding risk assessments where they are providing or commissioning activities for children and young people and adults at risk and/or where facilities are being hired by outside organisations.
- It is intended to help Affiliated Clubs ensure that the safety and welfare of children and young people is the paramount consideration within the planning and delivery of activities specifically for under-18s or adults at risk in disability football.
- The Child Welfare Officer has completed the Risk Assessment and it has been signed off by the Chairman & Club Welfare Officer.
- During the upcoming season the football club does not plan on running any tournaments or events. Should an event be held there will be an event-specific Risk Assessment based on this version.
- It is a document that is always under review. Should new guidance be issued during the season, this document will be updated and redistributed.
- This document has been sent to all coaches and volunteers associated with the football club. It is also listed under the policies section on the Wilburtonfc.co.uk website.
- This document was based on a template sent by Cambridgeshire FA. Some sections refer to events (as in tournaments). Some sections that are in specific relation to event organisation have been removed as they are not relevant.

Section 2: Risks and mitigations

Section 2a: Consent

Area of Concern See guidance notes below	Risk to Young People or adults with a disability or at risk	Risk before mitigation	Solution/mitigation	Risk after mitigation	During or post-activity review
Consent to attend the event	Allowing persons to play without written consent. Possibilities of forged signatures.		<p>Pre: Coaches to ensure direct contact with player's parent/guardian during the club registration process.</p> <p>During: Communication directly with parents with regards to training and matches, as well as direct channels of communication for parents to let coaches know if children can't attend</p>		
Consent to be photographed or filmed	Persons being filmed or photographed without prior written consent.		<p>Pre: All parents are asked during the registration process for their consent so that we know who doesn't give permission</p> <p>During: Any people taking photos to be challenged. During photo opportunities children who are not to be photographed will be excluded from photo opp. No child's name is ever used, unless specific consent is sought.</p>		

Social media <i>Consent to be contacted via social media/to access information via social media/be visible via social media</i>	Photographs and information being placed on social media platforms without prior written consent.		Pre: Covered as part of photography consent. During: Parents would always be asked for specific consent if team plans to use images or details on social media.

Section 2b: Suitability of staff and volunteers

Area of Concern See guidance notes below	Risk to Young People or adults with a disability or at risk	Risk before mitigation	Solution/mitigation	Risk after mitigation	Review post-activity
Signed Code of Conduct for staff and volunteers <i>(Consider making Code of Conduct available in different formats e.g. Braille, large print, additional language(s))</i>	Discipline issues may arise if Codes of Conduct are breached.		Pre: All coaches to be required to read the code of conduct. During: Coaches to monitor other coaches during sessions, raising concerns where necessary. Child Welfare Officer or club committee to attend occasional games		
Suitability of staff: <i>Where relevant, consideration should be given to</i> <ul style="list-style-type: none"> ● DBS ● Safeguarding education – children ● Safeguarding education – adults at risk ● Disability awareness ● Any other relevant training 	Staff not holding mandatory FA qualifications for them to work and supervise young people / adults with a disability. Staff not easily identifiable.		Pre: CWO to provide regular updates during committee meetings on the status of all coaches. All new coaches to only be allowed to coach once they have undertaken the checks and certifications During: All adults involved in the club to be regularly checked throughout the season and the CWO to provide an update.		

<p>Staffing ratios</p> <p>Insufficient coach-player ratios on the day</p>	<p>If a Manager/Coach of a team has an emergency / becomes unwell, children may be left with unsuitable supervision.</p>		<p>Pre: Coaches to communicate with other coaches to see if enough other people are available to provide cover. If not, the coach would cancel the game/training session and communicate to parents.</p> <p>During: Coaches don't train groups alone. If one coach was taken ill during a match/training session then the game/session would have to be stopped and players collected by parents. The other coach would let all parents know and arrange collection of all children.</p>		
<p>Appointed Under-18 referees</p>	<p>No communications to referees outlining plan of day.</p> <p>No start/finishing time given.</p> <p>No medical information & emergency contact details of referee given to organiser.</p> <p>Not informing parent/carer of U18 referee who will be responsible for them.</p> <p>No toilet facilities for referee.</p> <p>No breaks or refreshments provided to referees.</p> <p>Referees over the age of 16 years not holding an in-date FA DBS.</p> <p>Referee left at end of event with no adult supervision.</p>		<p>Pre: Before games, home team coach to communicate with FA-appointed referee providing information on location, times and information on facilities.</p> <p>During: Coach to welcome referee when they arrive, to show them where everything is and to check on them after the game. If the under 18 referee is due to be collected by an adult, then coaches are to stay with them until they are collected.</p>

Section 4: Guidance notes

Consent (As a guide all under-18s must provide parental/legal carer consent)

Please ensure all participating teams are reminded that they must have written consent for all players to take part in activities, including parent/carer contact details and medical information forms.

Staffing ratios

There must always be a minimum of 2 club officials present. Consideration must be made to the age of players, location of changing rooms and toilets. Where there are children with a disability or additional needs, you will require additional staff

Follow the guidance note 5.5, found here:

<http://www.thefa.com/football-rules-governance/safeguarding/section-11-the-complete-downloads-directory>

Any U18s who are helping with coaching/refereeing are counted as children in the staffing ratios.

Participating teams should be reminded of this and be responsible for their own players during the event

DBS checks.

All Club Staff Members working with children in **club teams** must have had an FA DBS within the last 3 years and be approved on the CFA affiliation portal – remind participating teams. Volunteers who are helping at a one-off event will probably not meet the frequency threshold for an FA DBS but please ask CFA DSO if you are not sure.

Suitability of changing facilities	Consider your changing facilities. Do you have separate changing for match officials and each team? U18 match officials must change separately to 18+ officials. Are they lockable? Who has access? Adults should not enter changing rooms while children are changing or showering. Let all the participating teams know about the changing facilities you have available for them and any issues which they need to be aware of (will they be able to lock the changing rooms?)
Relevant insurance is in place	Your insurance through affiliation may cover your participation but ensure that you have checked the venue insurance with the owner for public liability. Visiting teams may be responsible for their own personal accident insurance. Check both of these points.
Drop off and pick up arrangements	Participating teams are responsible for their own travel arrangements. Are parking facilities at the venue suitable for coaches/minibuses/private cars? Ensure that stewards are allocated to oversee the parking area. Are there suitable pedestrian walkways?

<p>Playing area (Goal posts, surface, pitch markings, RESPECT barriers)</p>	<p>Who is responsible for ensuring the playing area is suitable and clear of damage/glass/needles/mess? Make sure the goalposts are checked, pitches are correctly marked and Respect barriers in place. If goal posts need to be moved, ensure that this is only done by an adequate number of adults.</p>
<p>Parking at venue</p>	<p>Is parking available to visiting teams? How many spaces are available and is there any overflow parking? Provide details of the parking for visiting teams and any costs. Are there spaces for minibuses and coaches? Is there a clear pedestrian path?</p>
<p>Format of event/Programme of matches</p>	<p>Provide details of the format of the tournament to all opposition teams, including rules and ensure you have sanction from the CFA for the event. Ensure you have a point of contact desk for player registration, checking consent details and dealing with enquiries.</p>
<p>Hospitality, photographers, and public toilet facilities</p>	<p>Will you have refreshments? Consider dietary requirements. All players will need access to water and food- is this available to buy at the event or will teams need to provide their own refreshments? Teams need to be notified of the situation in advance. Will there be an official event photographer? They will need guidance on consent and type of photography. You will also need to ensure all teams have given consent for photographs- where will they be published? How will those for whom there is no consent be identified? Players and match officials should have access to toilet facilities, and these should not be public toilets if possible. You need to assess the risks and let opposition teams know what facilities are available.</p>
<p>First Aid</p>	<p>The event must have a designated First Aider with an in-date qualification and an appropriate First Aid kit. The number of First Aiders should be pro-rata to the number of participating teams Ideally, a coach or manager should have an in-date FA Emergency Aid certificate.</p>
<p>Kit</p>	<p>Are players suitably equipped to play? Shin pads? Warm clothing for subs? Appropriate studs for the surface? Inform participants of rules regarding playing kit and jewelry (including piercings)</p>

Medical	Teams are responsible for ensuring they have details of any relevant medical conditions or requirements for each player. This information must be stored securely and shared with coaching staff where appropriate. Medication is the responsibility of players and parents and should not be administered by coaching staff without written agreement of parent(s) /guardian(s) Actions plans must be in place for any players with additional needs.
AED Defibrillator	Please ensure that you have access to an AED Defibrillator - Your own? Does the venue have a Defibrillator? - use this link: AED Defibrillator UK Locations Find an AED / Defibrillator (heartsafe.org.uk) to identify nearest location
